Product Features

Sleek handle-less design – clean, minimalist cabinetry aesthetic

Precision engineered – smooth, consistent operation

Child-safe practicality – reduces climbing and snag risks

Easy integration – installs into standard cabinetry systems

Durable construction – built from high-quality materials

How to Specify.

1.

Choose Your Finish

Select your preferred colour and finish from the Compac Panels catalogue or website.

2.

Confirm Requirements

Determine the date the panels are needed and review current production lead times.

3.

Place Your Order

Email panels@compacgroup.co.nz with substrate, colour, thickness, and quantities you require or set up a trade account and order at www.compacpanels.co.nz

Technical Details

ZenoGrip is an invisible drawer opening device, recessed, and angled at 45° degrees.

It gives a clean, stylish line to kitchens and avoids clothing snagging on handles or children being able to climb up drawer handles to access stove-tops, or cupboards.
